

xm is the greatest innovation in radio in my life-time. i strongly discourage any legislation designed to curtail its ability to offer its subscribers a full array of listener services, including traffic and weather reports. its invaluable to have immediate access to these services without having to endure seemingly endless commercial spots and wannabe- comedic disc jockeys. plus, the music is un-matched anywhere on the commercial dial. I URGE THE FCC TO REJECT THE NAB'S PETITION 04-160. thank you.
